Image Resolution and Quality Guidelines

To ensure the highest quality of reproduction, all submitted artwork and visual elements must meet strict resolution and formatting standards. Photographs and halftone images must be submitted at a minimum resolution of **300 dpi**, while bitmapped line drawings and vector graphics require a minimum of **1000 dpi**. For combination images (line art with halftones), a minimum of **500 dpi** is necessary. All color files should be saved in **CMYK** color mode for optimal print quality. Additionally, when embedding text within diagrams, flowcharts, or architectural drawings, please use JDT’s standard font *Times New Roman* prevent formatting issues during typesetting.
